IT'S TIME TO BUILD YOUR STORY

The journey begins when you open the box. Find everything you need to build your story, and get ready to start building!

Let's get organized!
Take all the pieces out of the bags and lay them out where you can see them. Be careful not to lose any.

Pull the tab to take your American Girl mini figure out of the window.

Take all the bags of pieces out of the box—you're almost ready to start building. Make sure you have your instructions handy!

Meet Lanie!

Girl of the Year® Lanie Holland loves making discoveries in the great outdoors—even in her own backyard. She's an energetic girl who dreams of being an explorer, or maybe even a wildlife biologist!

She discovers that adventures are all around us.

When Lanie and her family take a trip in their camper, the world becomes their backyard. Her home-away-from-home has everything she needs for adventure.

Lanie is excited to settle in at the campsite today. First she packs a lunch for the day's exploration. She's going to take a hike and track some wildlife. Maybe she'll spot a bunny friend for her pet rabbit, Lulu!

At the end of the night Lanie toasts marshmallows and relaxes by the campfire. Crawling into bed, she looks out the window at the starry night sky. "The big question," she says, "is where should I go tomorrow?"

Lanie learns there's a world of wonder right outside her door.

You might find Lanie making field notes in her science journal or sketching a caterpillar that's turning into a butterfly. She only has to open the door to find something worth learning about!

BUILDING TIP

Did you know that the lever on Lanie's camper actually locks the door? It's easier to build the camper if you lock the door first. Try it!

BUILDING TIP

You'll use several different lengths of bricks to make Lanie's camper. To be sure you grab the right one when you're building, line up all the rectangular bricks on a table. Sort them by size.

There's no fooling you!

BUILDING TIP

Let's get this camper rolling!
The bar between each pair of wheels is called an axle.
To attach the wheels and axle bricks, turn the camper upside down. It makes it easier to see what you're doing.

BUILDING TIP

The roof on Lanie's camper can be raised so she can feel the breeze! To do this, make sure the C-clip pieces are attached to both the roof (white) and the walls (blue). Gently tilt open the roof until it rests on the back window.

BUILDING TIP

To assemble the storage rack, you'll want to stretch the cargo cords tight. To do this, take a cord and attach one of its loops to the end of the rack's bars. Now, stretch the cord diagonally and attach the other loop to the opposite bar the same way.

Repeat with the second cargo cord to create an "X" across the top of the camper. Now you and Lanie are all set for adventure!
